## Delivering the Industrys:

- Most Reliable Service
- Highest Economic Performance
- Cleanest Containers
- Strictest Regulatory Compliance
- Highest Environmental Performance

### Complimentary Steel Drum (55-Gallons)

**recycOil** industrial steel drums are durable, convenient for your staff to use, and cost effective for us to replace when it's time for clean containers. Experience for yourself why hundreds of Rocky Mountain region customers are satisfied with our premium recycling service and our standard 55-gallon steel **recycOil** containers. Call us today to begin service!

### Plastic Internal Container (55-Gallons)

**recycOil** offers internal waste cooking oil container solutions to qualifying customers that fit under most kitchen countertops. Containers are equipped with castors for easy mobility and cleaning around your waste cooking oil disposal location. Keep grease thieves away and maximize your revenues with this convenient container. Call today for qualification details.

### Bulk Bin (210-Gallons)

Our bulk grease bin containers are constructed from 12-gauge steel. Each container is pressure leak tested to ensure reliability, cleanliness, and customer satisfaction. Containers are equipped with locking lids to reduce theft, and dolly frames with industrial castor systems to make it easy for your staff to clean around and under grease collection bins. Call **recycOil** today for additional bulk bin details and request a 210-Gallon container for your waste cooking oil recycling needs!

### Heated Internal Grease Tank (175-Gallons)

This newest **recycOil** container option saves time for your staff while reducing the potential for waste cooking oil spills and burns. [Onken WM72] 175-Gallon tanks are powered by a single 120 volt/20 amp circuit and can be used as stand-alone units or plumbed directly to your fryer. This internal tank offers convenience for you and your staff, while providing a hassle free and theft proof service solution. Call today to see if your business qualifies for this top of the line, **recycOil** heated internal tank option.
