Maximize your used fryer-oil value by becoming a **recycOil®** member. In conjunction with the development and commissioning of our new **Colorado bioXchange®** biodiesel production facility, our **Membership Program** provides you with the greatest additional economic value for your waste cooking oil resource. Backed by our impeccable reliability, advanced logistics, sanitary service, and vertical integration in the biofuels industry, the **recycOil® Biofuel Dividend Membership Program** is your most business savvy and environmentally responsible choice for waste cooking oil recycling.

By joining the **recycOil® Biofuel Dividend Membership Program**, you are automatically entitled to **cash rebates!** Member dividends are distributed quarterly and based on the following factors:

- **Volume** – The volume of waste cooking oil we recover from your facility each quarter.
- **Quality and Yield** – The quality and condition of your waste cooking oil resource is affected by the % of water, food-particle contamination, vegetable oil type, and chemical composition.
- **Market Conditions** – Energy and agricultural commodity market conditions are dynamic and affect the economic value of refined waste cooking oil (“yellow grease”) and biodiesel fuel.
- **Location** – The geographic location of your restaurant facility, and its proximity to our logistics staging and manufacturing facilities.
- **Member Density** – Our **recycOil®** transportation logistics and recycling service costs are reduced as more restaurants and facilities in your area participate in our program. If your neighbors are customer members, your dividend increases!
- **Member Commitment** – Get a higher dividend by signing a multi-year service agreement with **recycOil®!**

The **recycOil® Biofuel Dividend Membership Program** ensures that you receive the greatest value, and that you are recognized for your savvy business management and responsible environmental management practices. Together, as our membership network grows and strengthens, so does our collaborative contribution to the economic vitality, environmental sustainability, and energy security of our region!

## Colorado Produced Renewable Biodiesel

RMSE's development of our vertically integrated, regional biofuel supply chain is enhanced by your company's participation. Thus we are able to deliver the highest-value, highest-quality biodiesel fuel to the Rocky Mountain market – fuel manufactured with feedstocks recycled from facilities and businesses like yours.
